It has not been improved for high tribute to the Society and its officers:

"The Agricultural Society had for its object the promotion of the agricultural and mechanical interests of the State. The Legislature ought to foster and encourage those interests above all others. There are not a dozen farmers in the State who would object to the small appropriation allowed by the present law, so far as taxpayers are concerned, the amount was of no consequence, The Society is embarrassed with debt, and the appropriation was possibly of vital importance to the Society to assist it in carrying out the commendable purpose of its organization. He paid a high compliment to the integrit and efficiency of Colonel Thomas M Holt, the President of the Society. Colonel Holt was known throughout the State as the right man in the right place, and under his man-agement the affairs of the Soc ety had been honestly administered, and its usefulness to our people fully established. This bill should not be acted upon hastily."

As the news from the recent election was flashed over the country, emotions of gratitude to dod thrilled every patriotic heart in the land. Everywhere the desponding were inspired with new hope that our republican institutions would be preserved and perp-tuated—the bright beams of a better day for our country after a long night of corruption and dark deeds. Let the gloomy past with all its errors be entombed in the rubbish scattered hither and thither by its own disasters. Let the Democratic party at once enter upon the discharge of its great mission. Let it rebuild the waste places, repair the broken walls and re-establish the prosperity of our country. "Let us have peace." Let the conflicts that have shake nour government to its centre and destroyed so many of its cherished viories be hushed by the swelling anthems of a redeemed nation.

PUBLIC DEBT.

Mr. Waring made a report from the Committee on Public Debt, submit-ting a substitute for all bills already introduced upon this subject. The said substitute provides that in con-sequence of the unforeseen disasters resulting from the late war between the States, sacrificing the greater portion of the taxable property upon which the State debt was based, and other results from the same cause, the State of North Carolina is not to-day able to pay the debt outstanding against her; and yet, her people being desirous of assuming and paying to the public creditors so much of the just debt of the State as their unfortunate condition will allow, the General Assembly of North Carolina makes the following proposition: That new coupon bonds be issued, running thirty years, bearing six per cent. interest payable semi-annually, to be exchanged for the outstanding bonds of the State in the following manner: for the bonds issued before the 20th of May, 1861, at the rate of 331 per centum of the principal of the bonds so surrendered; for the bonds issued under the fund-ing acts of the 10th of March, 1866, and the 20th of August, 1868, at the rate of 25 per centum; for the bonds issued since 20th of May, 1861, in pursuance of acts passed before said last named date, at the rate of 20 per centum; for the registered certificates of indebtedness due to the Literary Fund, at the rate of 333 per centum, and it shall be the duty of the Literary Board to so convert said certificates. The bonds so issued shall be in the usual form of bonds of this

State, and that the debt of the State so made shall be styled as "The consolidated debt of the State," and such debt and the bonds so to be issued shall not be construed to change the nature of the debt of the State, but to reduce the same to such a sum as can pe paid. Mr. Linney endorsed the report of the Committee. He claimed that unrestricted usury was wicked in itself; it was unfavorable to liberty. The usury law was demanded in North Carolina and would add capital to the State. The arm of the criminal law should be thrown around this measure to protect the people of the State. He continued his remarks for the space of one hour.

The object of the bill was briefly explained by Mr. Means, as giving to the chief officers of cities and towns and Justices of the Peace final jurisdiction in all cases where

they have the Constitutional right to try and determine.

On motion of Mr. McIver, the bill to repeal the law, appropriating the amount of \$1,500 to the North Carolina State Fair, taken up under a sus pension of the rules and discussed.

Mr, McIver said no other fairs of the State had this State aid, and though he was loyal to the State Fair yet he was more loyal to the people.

Mr. Boyd said he hoped that this hasty legislation would not be urged, as it was one of importance. The State Fair, he said, was really the Fair of the people of the whole State, and under its present management, would soon be an ornament to the State. He hoped the bill would not

That the properties of certain vegetables comprise all the virtues of calomel without its highrous tendencies, is now an admitted fact, rendered indisputable by scientific researches; and those who use the Mandrake Phils will be fully satisfied that the best me ictimes are those provided by nature in the common herbs and roots of the fields.

King Kalakana's Visit to This Country and Its Odject. A Washington correspondent to the Tribune, speaking of the visit to this country and to Washington of the King of the Hawaiian Islands, says:

"As to King Kalakaua's mission here there is scarcely but one opinion among those best informed, and that is that it relates directly or remotely to the subject of annexation. A few believe that it has reference to a reciprocity treaty, which would prove of very great advantage to the Hawaiian Islands, but even this view, were it correct, might bear remotely toward ultimate annexation by the United States. There are very few who believe that the visit is merely a social one, and that the Government would pay such marked attention to a ruler of such insignificance there were nothing to gain by it. When the Grand Duke of Rus

sia, to the exertions of whose father the United States owed, in a grea measure, the non-interference of Europe during our civil war, came to Washington, he was treated with marked contempt, and was not received at the depot by a single Gov-ernment officer. Even Baez, the President of a Republic, and a colored man, was not treated with politeness during his two or three visits to Washington. But the Secretary of State and two other Cabinet officers, with their secretaries and a special train, make haste to meet King Kalakaua, and escort him with banners, music, and soldiers to his hotel. Such attention, it is urged, would not be accorded the King of the Hawaiian Islands under ordinary circumstances. It is also said that General Schofield's visit to the island, two or three years ago, was in reality for the purpose of sounding the Government and the people on the subject of transferring their allegiance to the United States, and that the present King's mission here is but another

And new here is the Emperor of

Austria up for economy. A short time ago one of his imperial Majes-ty's ships arrived at Stamboul, and the Austrian Internuncio, Count Zichy, at once chose her for a gala pleasure trip up and down the Bos-phorus. An official and grandiloquent report to headquarters seems to have been drawn up about the event, which was even submitted to date the laws relating to security of the Emperor. On the return of the life on board of vessels propelled in diplomatic document the following pencil query, written by the Empeor, was found on the margin:-"Who pays for the coal?"

It is no easy matter to make a telecope of the highest power. At one period that of Lord Rosse was a continual wonder. Afterward that at Cambridge superseded the Rosse instrament, and the Herschell telescope contested its honors. Both will be offrivalled by a telescope constructing since 1865 in France, for the Paris Observatory. Its length will be forty-nine feet, and its diameter six feet six inches.

BRADLEY'S PATENT MADE FROM Pure h te Lead, Linseed Oil and Zinc, and Always Ready for Use.

READ THE FOLLOWING TESTIMONIAL:

From Prot. W. G. Simmons, Wake Forest College, North Carolina. WAKE FOREST COLLEGE, N. C., October 1, 1815.

Mr. C. P. Knight—Dear Sit: We have for several months been using your Bradley's Patent Enamel Paint on our College Building, and are well pleased with it. Though it was applied by one hold not not such work, yet we have a good Job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market.

W. G. "IMMONS. WAKE FOREST COLLEGE, N. C., October 4, 1873.

Frem Messrs. Engelhard & Saunders. Editors and Proprietors Journal. WILMINGTON, N. C., Decem' er, 26, 1873. We desire to call especial attention to the advertisement of "Bradley! Patent Etam 1 Paint." We can recommend it from a knowledge of its merits. Some of the employees of this office having purchased some of this paint from Mr. C. P. Knight, of Ba timore, have us dit and speak in the highest terms of it, after a trainf several months. While it is as durable as ordinary paint, it has a much fine finish, and its cost and convenience will recommend it to all in need of paint.

The Plains, Faquier C., va., Feb. 6, 1873.

Mr. C. P. Knight-Sir: The paint came safe to hand as ordered, 2 keys, 5 gallon each, and 3 buckets, I gallon each. Is practice was slick, I did the job myself. Two weeks (not constant work) completeds be house, two class; the last coat I applied thick, and it is now generally conceded that, for "enamel," like hardness, and body and harmony of colors, there is not a hand-somer job in the place. I have saved slxty-five dollars by the operation—which is an item just now with the Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dubbed in such stock as "lestimonials," but I fiel so foreibly the great adaptability of your. Enamel Paint" to the wants of our people—in excellency of material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter.

Very respectfully and truly.

Dear Sir :— I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other presentions for the same purpose, viz: the restoration of the hair to the natural color, but was compel ed to abandon them, because they affected my system, gave me rheuma ism and neuraigla. Xanthine, however, has not had this effect; on the contrary, has been beneficial in this respect. Hoping that you may be successful in its sale.
